Indian Institute of Science Education and Research Bhopal

Deep Learning (DSE316/616)

Phd_Assignment

Deadline: 20-04-2026, 11:59 PM | Max Marks: 20

Please follow the instructions carefully

- Submit:
  - Properly formatted and commented source code.
  - A brief report (PDF).

Select **one research paper** from the provided Excel Sheet link. The selection will follow a **first-come, first-served** basis, and each paper can be selected by **at most two students**.

- **Paper Review and Understanding** **6 Marks**
  - Provide a clear and concise summary of the paper.
  - Highlight the key strengths of the proposed approach.
  - Discuss the limitations or weaknesses of the paper.
- **Methodology Reproduction** **6 Marks**
  - Reproduce the **proposed methodology** of the selected paper.
  - If the dataset used in the paper is too large, you may use a **relevant subset** while ensuring consistency with the original setup.
- **Extension and Analysis** **5 Marks**
  - Identify at least one limitation of the paper and attempt to mitigate or improve it.
  - Perform experiments to evaluate your modification.
  - Analyze whether the outcome is **positive or negative**, and provide reasoning for the observed results.
- **Report** **3 Marks**
  - Include experimental results, comparisons, and visualizations wherever applicable.
  - Clearly explain your implementation choices and observations.
